Bill,

FAA STC SR00571NY has been updated to add the 210 and AB412/AB412EP models.
 Project 210 is 1 step closer to being complete.

Kim,

STC looks OK, even though the FAA has ressurected an old FMS that is unnecessary.
 Since we recently won the war with the FAA on Eagle Single, I'd prefer not to fight this battle on the bearpaws.
 Go ahead and release on an ECN and update the PDS.
 You will have to add this FMS to the kit paperwork as well as the IIN/ICA called out on the FAA STC.
 Recommend that we open bearpaw kits in stock and replace the entire paperwork package to avoid any confusion.

David

Jackey,

Neither Kim or I can find the NAPA number.
The corresponding Canadian STC number for SR00571NY is SH96-42.
